Drain out excess water from jute, ginger, chilli, tomato and dalley khorsani fields and nurseries of *kharif* rice, finger millet and vegetables.
- In **Gangetic West Bengal**, harvest mature sesame pods promptly and keep the harvested produce in safer place. Arrange proper drainage in vegetables, ginger and turmeric fields and betel vine gardens to avoid waterlogging.
- In **Odisha**, postpone transplanting of rice seedlings and sowing of *kharif* crops till cessation of heavy rainfall. Drain out excess rain water from rice and vegetable nurseries and fields of rice, maize, cotton, millets, vegetables and pulse crops and fruit orchards to prevent waterlogging.
- In **Jharkhand**, construct channels around the rice nursery bed to maintain proper drainage.
- In **Bihar**, harvest the mature pods of summer green gram and keep harvested produce in safer places. Provide adequate drainage facilities in rice nurseries and maize fields.

- In **Chhattisgarh**, ensure proper drainage in nurseries of rice and vegetables.
- In **Gujarat**, postpone sowing and transplanting of *kharif* crops until rainfall intensity decreases and fields conditions become favourable. Delay transplanting of rice in submerged fields until excess water recedes. Provide adequate drainage in nurseries to prevent seedling damage and waterlogging. Drain out excess water from rice nursery; fields of sugarcane, okra, vegetables, yam and sapota orchards.
- In **Konkan**, postpone nursery sowing of rice, finger millet and vegetables; sowing of groundnut and cucurbitaceous vegetables and planting of new orchards like mango, coconut, cashewnut and arecanut.
